

Royal British Legion Sheringham

Monday October 3rd
7.30 pm for 8 pm start
Our first talk will be at
the Tyneside Club, Station Rd.

Commander Tom Herman OBE has kindly offered to come to our October meeting and speak about the UK's nuclear deterrent. Tom has an extensive background in the Royal Navy and retired in 2014, having served in the Falklands, amongst many other positions in the Royal Navy. His experience includes serving as Commander of the Starboard Crew of the Polaris missile carrying submarine HMS RENOWN and Commander of RNAS YEOVILTON.

Even in 'retirement' he maintains his links with the service as the Submarine Flotilla Secretary representing the views of the veterans community to the Flotilla HQ. He is also Deputy Chairman (Membership), North Norfolk Conservative Association.

Tom says, "I will talk about the Nuclear Deterrent, from warhead to Prime Minister, and all steps in-between to give those who routinely are not involved with the deterrent an idea of how it works and to dispel some of the common myths."

Meetings start 7:30 and the talk will start around 8pm, though the length of talks remains variable, depending on the speaker.

It should be a very interesting and informative speech about a topic that is very current, given the war in Ukraine.
